TRIM STRIPS FOR HOUSE CORNERS (PRINT AS MANY AS REQUIRED AND TRIM TO FIT)

19 – LARGE DORMER

TRIM STRIPS

NB. Cut out trim strips two planks wide and apply them vertically to the corners of the house and tower.

You will need to cut them to the required length and then fold them along their centre line to form the 'L' shaped corner mouldings.

Apply glue and carefully fit in place.

The trim strips will be fitted vertically on the corners of the clock, also on the bay window edge and on the underside of the balcony.

Check the photographs of the finished clock to determine the exact placement of the pieces.
