

A thick black outline of a mask template. The top edge is a smooth curve. The left side is a straight vertical line. The bottom edge is a straight horizontal line. The right side is a curved line that starts from the bottom horizontal line, curves inward, then outward, and finally curves back to meet the top curve.

A thick black outline of a mask template, identical to the one above. The top edge is a smooth curve. The left side is a straight vertical line. The bottom edge is a straight horizontal line. The right side is a curved line that starts from the bottom horizontal line, curves inward, then outward, and finally curves back to meet the top curve.
